ARE YOU WORRIED ABOUT YOUR THESIS?

- Managing time, team and supervisor
- Topic selection, concept development, and proposal writing
- Planning, writing, and publishing thesis
- Writing articles that are related to the theses
- Using thesis for success in academic career

LET US HELP YOU SOLVE THE PROBLEM

Doing research degree requires very specialized skills particularly managing the thesis part of MS/PhD program. Good Thesis not only determines success in current program but also opens new doors for future research, academic career, next level degree and scholarships for post-doc.

This course helps you twice; first, producing high quality thesis and 2nd using thesis for your success in academic career. The course combines expert lectures and challenging cases to generate your thinking on unexplored potentials of you and your research. The supervisors have experience in teaching and evaluating theses and will be only happy to share this rich experience and insight about the subject with you.

LEARNING APPLICATION

- The research scholars would be able to solve many problems they face during their thesis work at MS and PhD level
- The participants will learn how to write effective proposal, win academic approvals, grants and industry partnership
- The research scholars will be able to understand objectives and expectations from thesis at each stage like planning, executing, writing and review by internal and external supervisors
- The research scholars would be able to create synergy between thesis work and their academic career to utilize research potentials
- The research scholars would learn the art of publishing papers and book out of their thesis
- Participants learn using citation and techniques of quotation

WHAT WILL PARTICIPANTS GET?

- Certificate
- Resource materials and slides
- Post-course consulting
- Networking with professionals
- Continuous learning on the subject
- Refreshments during classes

WHAT BENEFITS WILL I GAIN FROM THIS WORKSHOP?

In addition to the overall enhancement of research skills, this workshop is specifically beneficial for Masters/Graduation, Master/PhD Students and Junior Researchers as it will:

- Enhance their capability for preparation of research proposals
- Increase awareness about the copyrights and paraphrasing
- Promote their ability to construct a strong foundation of their research articles
- Linguistically and technically, will help to produce a quality piece of research
- Reduce the chances of their papers being returned for amendments and updates
- Enhance their ability to convert their articles into publishable format
- Strengthen their research background and make them more confident researchers
- Using Special bibliographical features of Microsoft Word that make referencing easy

The workshop will help Researchers of “R&D Organizations”, “Research Centers & Institutions”, “Public Sector Organizations”, and “Policy Study Intuitions” in:

- Enhancing the managerial expertise of senior researchers and supervisors
- Help them in developing strong research proposals for funding
- Strengthen the research proposal and report writing expertise of all researchers
- Enabling participants to explore relevant avenues to publish their work
- Help them to avoid common mistakes in their report writings
- Strengthen the report writing skills of non-academic researchers and executives

COURSE CONTENTS

Week One – Proposal/Synopsis/Theses Writing

- Topic selection and concept development for thesis proposal
- Development of research design for thesis proposal
- Writing proposal/synopsis for thesis
- Winning academic approvals for proposal/synopsis
- Tips on finding research grants - scholarships
- Thesis as instrument for success in academic career
- Team, time and supervisor management for Thesis
- Art of Thesis writing – introduction and literature review
- Art of Thesis writing – analysis and findings
- Format, formations and presentation of Thesis
- Editing, reviewing and revision in Thesis
- Presenting Thesis for academic defense
