

Major topics in subjects of the CBU study programmes

[Compressed Syllabi]

How to use this guide:

Each study programme CBU consists of several courses. These courses cover specific area of knowledge and we decided for you as prospective student to describe it briefly by not mentioning full syllabi with literature and materials just by using names of main chapters and keywords. We hope this brief guide will be informative at sufficient level. More information is available on demand.

Last update April 1, 2016

BBA PROGRAM – COURSES AND STUDY TOPICS

Research methods - Dissertation writing	Accounting	Marketing	HR + Organizational Behaviour
Dissertation writing	Financial Accounting	Marketing Definition	Human Resource Management
Research methods	Managerial Accounting	Marketing Research	HRM Strategy
Research Ethics	Decision making	Market Analysis	Diversity and Multiculturalism
Choosing a topic	Collecting Information	Brand building	Recruitment
Sampling	Financial Statements	Product Strategy	Selection
Reading review	Reporting	Pricing	Compensation and Benefits
Resources selection	Receivables	Logistics	Retention and Motivation
Quantitative Research	Inventory	Marketing Communication	Internal Communication
Qualitative Research	Property and Equipment	B2C Marketing	Labour Unions
Research Design	Assets	B2B Marketing	Organisational structures
Data Collection	Liabilities	Internet marketing	Internal training
Quotations	Shareholders' Equity	CRM system	Job Descriptions
Formal Style of Dissertation	Cash Flow	New trends	Ethics in HRM

BBA PROGRAM – COURSES AND STUDY TOPICS

Management	Strategy	Law	Business Ethics
Management Principles	Competition	Introduction to Law	Business Ethics Intro
History of Management	Globalization of Companies	Court System	Theories of Duties and Rights
Mission, Vision, Values	Generic Strategies and Value Creation	Litigation	Theories of Consequence Ethics
Goals and Objectives	Global Strategy as Business Model	Alternative Dispute Resolution	Cultural Relativism
Organizational Structure and Change	Target Markets	Constitution	Employee Ethics
Organizational Culture	Modes of Target Market Entry	Contracts	Managers Ethics
Social Networks	Value Proposition	Torts	Discrimination
Leadership	Branding	Property System	Sex and Drugs at workplace
Decision Making	Value Chain Infrastructure	Intellectual Property	Tax optimization
Control	Supply-Chain Management	Corporations	Consumer protection
Strategic HRM	Management Model	Business Law	Corruption
Managing Groups and Teams	Art of War	Labour Law	Ecology and Economy
New trends in Management	Modern Strategy Trends	Criminal Law	Abuse of personal data

BBA PROGRAM – COURSES AND STUDY TOPICS

Business Statistics	Economy
Intro to Statistics	Intro to Economy
Descriptive Statistics	Macroeconomics
Concept of Probability	Interconnected Economy
Discrete Random Variables	Money
Continuous Random Variables	Central Banks
Sampling Distributions	The Great Depression
Estimation	Microeconomics
Hypothesis testing	Demand and Supply
Data collection	Prices
Correlation and Regression	Firms and Investor
Presentation methods	Monopolies
Website Statistics	Perfect Competition
New trends in Business Statistics	Global Financial Crisis

MBA PROGRAMS – COMMON COURSES AND STUDY TOPICS

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

Executive MBA
Financial Analysis
Financial Markets
Retail and Commercial Banking
Project management

Financial Analysis	Financial Markets	Retail and Commercial Banking	Project Management
Intro to Financial Analysis	Banking	Intro to banking - Retail and Commercial	Introduction to PM
Balance Sheet	Investment Banking	Balance sheet risk	Project Profiling
Operating statement	Central Banking	Bank Regulatory Capital	Project Phases and Organization
Cash Flow Statement	Investment Funds	Banking and Credit Risk	Client Expectation
Statement of Changes in Owner's Equity	Insurance	Loans and investments	Project Team
Operating Funds	Money markets	Securitisation and yield curve	Communication Technologies
Assessment of Business Performance	Bond markets	Bank Assets and Liability Management	Launching Project
Projection of Financial Requirements	Equity Markets	References and Treasury Operating Models	Time Management
Dynamics of the Business System	Share Capital	Risk reporting and Policy	Project Costs
Analysis of Investment Decisions	Future Markets	Bank Liquidity Risk Management	Project Quality Management
Cost of Capital	Options and swaps	Bank Strategy and Governance	Project Risks
Financing Choices	Foreign exchange markets	E-banking, software, application	Project Procurement and Closure
Valuation and Business Performance	Regulation and crisis	Trends in Banking	New trends in PM

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MBA in Finance and Economics
Financial Analysis
Financial Markets
Retail and Commercial Banking
Business Statistics

Financial Analysis	Financial Markets	Retail and Commercial Banking	Business Statistics
Intro to Financial Analysis	Banking	Intro to banking - Retail and Commercial	Intro to Statistics
Balance Sheet	Investment Banking	Balance sheet risk	Descriptive Statistics
Operating statement	Central Banking	Bank Regulatory Capital	Concept of Probability
Cash Flow Statement	Investment Funds	Banking and Credit Risk	Discrete Random Variables
Statement of Changes in Owner's Equity	Insurance	Loans and investments	Continuous Random Variables
Operating Funds	Money markets	Securitisation and yield curve	Sampling Distributions
Assessment of Business Performance	Bond markets	Bank Assets and Liability Management	Estimation
Projection of Financial Requirements	Equity Markets	References and Treasury Operating Models	Hypothesis testing
Dynamics of the Business System	Share Capital	Risk reporting and Policy	Data collection
Analysis of Investment Decisions	Future Markets	Bank Liquidity Risk Management	Correlation and Regression
Cost of Capital	Options and swaps	Bank Strategy and Governance	Presentation methods
Financing Choices	Foreign exchange markets	E-banking, software, application	Website Statistics
Valuation and Business Performance	Regulation and crisis	Trends in Banking	New trends in Business Statistics

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MBA in Information and Communication Technologies
Computer Literacy
Corporate Systems
Architecture and Security
Project Management

Computer Literacy	Corporate Systems	Architecture and Security	Project Management
Work with computer and file management	Corporate systems	Introduction to architecture of computer systems	Introduction to PM
Work with Internet services	Corporate IS	Components (CPU, Memory, HDD, etc.)	Project Profiling
Text management (bas)	Selection of corporate IS	Architecture of information systems	Project Phases and Organization
Text management (adv)	Corporate systems (ERP), principles and importance	Choosing architecture when developing own system	Client Expectation
Spreadsheet management (bas)	Functions of Corporate systems	Computer networks	Project Team
Spreadsheet management (adv)	Managerial systems	Globalisation and cloud services	Communication Tech's.
Presentations management (bas)	Business intelligence in corporate praxis	Security of operating systems	Launching Project
Presentations management (adv)	Electronic data exchange	Network security	Time Management
Databases	Development of Corporate systems	Intra-Corporate security	Project Costs
Project management & planning	CRM, Customer relationship management	Computer criminality, spam, malware, etc.	Project Quality Mngmt.
Methods of website creation	m-Commerce	Data protection	Project Risks
Searching and sharing data on Internet	e-Business - support and effectiveness of processes	IS security	Project Procurement and Closure
Cloud solutions	Implementing new IS	Encryption, electronic signature	New trends in PM

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MBA in Finance
Financial Analysis
Financial Markets
Financial Accounting
Statistics

Financial Analysis	Financial Markets	Financial Accounting	Business Statistics
Intro to Financial Analysis	Banking	Intro to Financial Accounting	Intro to Statistics
Balance Sheet	Investment Banking	Decision making	Descriptive Statistics
Operating statement	Central Banking	Financial Information	Concept of Probability
Cash Flow Statement	Investment Funds	Financial Statement	Discrete Random Variables
Statement of Changes in Owners' Equity	Insurance	Decision makers	Continuous Random Variables
Operating Funds	Money markets	Receivables	Sampling Distributions
Assessment of Business Performance	Bond markets	Inventory	Estimation
Projection of Financial Requirements	Equity Markets	Property and Equipment	Hypothesis testing
Dynamics of the Business System	Share Capital	Assets and Liabilities	Data collection

Cost of Capital	Ethical Issues	HRM Abroad	IT for CRM
Financing Choices	4P/4C	Convergence and Divergence	Sales-force Automation
Valuation and Business Performance	Selling Strategy	Ethics and Corporate Responsibility	Marketing and Service Automation

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MBA in Banking
Retail and Commercial Banking
Financial Markets
Monetary economics
CRM

Retail and Commercial Banking	Financial Markets	Monetary Economics	CRM
Intro to banking - Retail and Commercial	Banking	Financial System	Intro to Customer Relationship Management
Balance sheet risk	Investment Banking	Money	Customer Relationship
Bank Regulatory Capital	Central Banking	Interest rates	Customer Satisfaction, Loyalty, Performance
Banking and Credit Risk	Investment Funds	Bank Management	Planning and Implementing CRM
Loans and investments	Insurance	Financial Regulations	Developing, managing, and using databases
Securitisation and yield curve	Money markets	Financial Derivatives	Customer Portfolio Management
Bank Assets and Liability Management	Bond markets	Financial Crises	CRM and Customer Experience
References and Treasury Operating Models	Equity Markets	Central Bank	Creating Value for Customer
Risk reporting and Policy	Share Capital	Monetary Policy	Managing Customer Lifecycle
Bank Liquidity Risk Management	Future Markets	Money Supply and Demand	Investor and Employee Relationship
Bank Strategy and Governance	Options and swaps	Foreign Exchange	IT for CRM
E-banking, software, application	Foreign exchange markets	Inflation and Money	Sales-force Automation
Trends in Banking	Regulation and crisis	Euro Currency	Marketing and Service Automation

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MBA in Law
Business Law
Civil Law
Labour Law
Financial Law

Business Law	Civil Law	Labour Law	Financial law
Law, Legal Sources and Dispute Resolution	Introduction to Civic Law	Intro to Labour Law	Intro to financial law
Criminal and Civil Courts	Roman Civil Law, Canon Law, Commercial Law	Sources and Institution of Labour Law	Financial positions
Alternative Dispute Resolution	Sources of Law	Employment Relationship	Transaction Types
Business Transactions	Codes and Codification	Terms of Employment	Funded positions
Discharge of Contract	Judges	Working Conditions	Capital and Funds
Sale of Goods and Supply of Services	Certainty and Equity	Termination of Employment	Net Positions
Damages	Legal Process	Equality in Employment	Set Off and Netting
Business Organisation	Division of Jurisdiction	Collective Organisations	Title transfer
Agency	Legal Categories	Freedom of Association	Asset-backed Positions
Partnership Law	Legal Professions	The Right To Organise	Property rights
Nature and Formation of Companies	Civil Procedure	Collective Representation	Security
Management and Operation of Companies	Criminal Procedure	Industrial Action	Markets and Regulation
Employment Law and Health and Safety	Constitutional Review	Labour Law in EU	New trends

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MBA in Real Estates Development
Project Management
Real Estates Investment
Architecture
Construction

Project Management	Real Estates Investment	Architecture	Building Construction
Introduction to PM	Real Estates - Assets	Definition of architecture and terminology	General Construction
Project Profiling	Value in Time	Roman Architecture	Site Works
Project Phases and Organization	Liquidity and Risks	Gothic	Builders Plant
Client Expectation	Real estate's returns	Renaissance	Substructure
Project Team	Real Estate Market	Baroque	Superstructure
Communication Technologies	Market Players	Industrial Architecture	Internal Construction
Launching Project	Building Portfolio	Neoclassicism	Finishes
Time Management	Pricing for purchase and sale	Art Nouveau	Doors and Windows
Project Costs	Performance measurements	Modernism in the World	Painting
Project Quality Management	Investment Vehicles	Futurism	Domestic Services
Project Risks	Enlisted Real Estate Funds	Art Deco	Water Installation
Project Procurement and Closure	Property Derivatives	Other styles	Electric Installation
New trends in PM	Global portfolio and new trends	New trends in Architecture	New trends in Construction

MBA PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MBA in Diplomacy and International Relations
European etiquette and protocol
European union
Mediation and negotiation
Media and Public speaking

Full table on next page

European etiquette and protocol	European union	Mediation and negotiation	Media and Public speaking
Differences between protocol and etiquette	History of the EU	Rules of mediation and negotiation	Media communication as a part of the modern world

	Concepts and Frameworks	Unique elements in healthcare management	State vs. Private providers
Measuring health and Disease	History of Public health	Politics of healthcare	Marketing methods
	Public Health in Global Context	Financing healthcare	Marketing Processes
Establishing a Disease	Public Health Services	Global Health Policy	Brand building - prestige
Testing to control disease	Prevention of diseases	Innovations etc.	Product and Service Strategy
People's health	Health and Wellbeing of Children	Primary healthcare	Pricing and payments
Investigating people's past experiences	Health and Environment	Chronic disease and integrated care	Place convenience
Vaccination	Climate change and sustainable Development	Acute care	Communication to Patient
Mapping health and Diseases	Food Safety, Security, Sustainability	Mental health	Communication to other doctors
Medicine	Diet, Nutrition, Obesity	Social care	Social marketing
Prevention	Illicit Drugs	Healthcare organisations	Internet marketing
Public health	Alcohol and Tobacco	Healthcare management and Leadership	CRM system and ordering
Epidemiology ethics and politics	Socioeconomic Factors and Health	New trends in healthcare	New trends

MHA PROGRAM – COURSES AND STUDY TOPICS

Research methods - Dissertation writing	Accounting	Marketing	HR + Organizational Behaviour
Dissertation writing	Financial Accounting	Marketing Definition	Human Resource Management
Research methods	Managerial Accounting	Marketing Research	HRM Strategy
Research Ethics	Decision making	Market Analysis	Diversity and Multiculturalism
Choosing a topic	Collecting Information	Brand building	Recruitment
Sampling	Financial Statements	Product Strategy	Selection
Reading review	Reporting	Pricing	Compensation and Benefits
Resources selection	Receivables	Logistics	Retention and Motivation
Quantitative Research	Inventory	Marketing Communication	Internal Communication
Qualitative Research	Property and Equipment	B2C Marketing	Labour Unions
Research Design	Assets	B2B Marketing	Organisational structures
Data Collection	Liabilities	Internet marketing	Internal training
Quotations	Shareholders' Equity	CRM system	Job Descriptions
Formal Style of Dissertation	Cash Flow	New trends	Ethics in HRM

MHA PROGRAM – COURSES AND STUDY TOPICS

Management	Strategy	Law	Business Ethics
Management Principles	Competition	Introduction to Law	Business Ethics Intro
History of Management	Globalization of Companies	Court System	Theories of Duties and Rights
Mission, Vision, Values	Generic Strategies and Value Creation	Litigation	Theories of Consequence Ethics
Goals and Objectives	Global Strategy as Business Model	Alternative Dispute Resolution	Cultural Relativism
Organizational Structure and Change	Target Markets	Constitution	Employee Ethics
Organizational Culture	Modes of Target Market Entry	Contracts	Managers Ethics
Social Networks	Value Proposition	Torts	Discrimination
Leadership	Branding	Property System	Sex and Drugs at workplace
Decision Making	Value Chain Infrastructure	Intellectual Property	Tax optimization
Control	Supply-Chain Management	Corporations	Consumer protection
Strategic HRM	Management Model	Business Law	Corruption
Managing Groups and Teams	Art of War	Labour Law	Ecology and Economy
New trends in Management	Modern Strategy Trends	Criminal Law	Abuse of personal data

MSc. PROGRAMS – COMMON COURSES AND STUDY TOPICS

Managing Groups and Teams	Art of War	Labour Law	Ecology and Economy
New trends in Management	Modern Strategy Trends	Criminal Law	Abuse of personal data

MSc. PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MSc. in Economics
Macroeconomics
Microeconomics
Business Statistics
Econometrics

Economics			
Macroeconomics	Microeconomics	Business Statistics	Econometrics
Introduction to Macroeconomics	Economics and Microeconomics	Intro to Statistics	Introduction to Econometrics
State of Economy	Daily Economical Decisions	Descriptive Statistics	Basics of Probability and Statistics
Interconnected Economy	Demand and Supply	Concept of Probability	Probability Distributions
Globalization and Competitiveness	Elasticity	Discrete Random Variables	Simple Regression Model
Global Prosperity and Poverty	Welfare Economics and Externalities	Continuous Random Variables	Statistical inference
The Great Depression	Firms and Investor	Sampling Distributions	Model measures
Jobs in the Macroeconomics	Prices	Estimation	Multiple Regression Model
Money	Jobs and Wages	Hypothesis testing	Specification
Central Banks	Investing private money	Data collection	Variables
Inflation	Underground economy	Correlation and Regression	Heteroskedasticity and diagnostics
Income Taxes	Perfect Competition	Presentation methods	Autocorrelation, Multicollinearity
Social Security	Monopolies	Website Statistics	Simultaneous equation models
Global Financial Crisis	Human Capital and Income Distribution	New trends in Business Statistics	Statistical tables

MSc. PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MSc. In Ecology Management
Behavioural and Population Ecology
Management of Natural resources
Ecological Management of Water
Community Ecology

Ecology Management			
Behavioural and Population Ecology	Management of Natural resources	Ecological Management of Water	Community Ecology
Nat. selection, Ecology, Behaviour	Intro to Natural Resources	Introduction	Communities
Hypotheses in Behavioural Ecology	Sustainability problems	Technology Matrices	Competition
Economic Decisions and Individual	Ethics and Economics	Leak detection technologies	Predation and Communities
Predators, Competing for Resources	Welfare Economics and Environment	Pressure Management	Food webs
Living in groups	Environmental Pollution	Repair or replacing	Mutualism
Sexual Selection and Conflict	Pollution Control	Information system	Indirect effects
Parents and Family, Mating Systems	Limited Information on Pollution	Failures	Temporal Patterns
Sex Allocation, Social Behaviour	Economy-wide Modelling	Cost/Benefit Studies	Habitat Selection
Cooperation and Communication	International problems	Community awareness and education	Spatial Dynamics
Populations - single	Trade and the environment	Meter logging and recording	Causes and Consequences of Diversity
Interactions	Natural Resource exploitation	Planning and Implementation	Succession
Population regulations	Environmental Accounting	Software tools	Applied Community Ecology
Community structure	New trends	Cases in the Word	Future Development

MSc. PROGRAMS – SPECIALIZED COURSES AND STUDY TOPICS

MSc. In Legal and Business Studies
Business Law
Civil Law
Labour Law
Criminal Law

Legal and Business Studies			
Business Law	Civil Law	Labour Law	Criminal Law
Law, Legal Sources and Dispute Resolution	Introduction to Civic Law	Intro to Labour Law	Basic terms - introduction
Criminal and Civil Courts	Roman Civil Law, Canon Law, Commercial Law	Sources and Institution of Labour Law	Legal System
Alternative Dispute Resolution	Sources of Law	Employment Relationship	Constitutional Protections
Business Transactions	Codes and Codification	Terms of Employment	Elements of Crime
Discharge of Contract	Judges	Working Conditions	Criminal Defence
Sale of Goods and Supply of Services	Certainty and Equity	Termination of Employment	Parties to Crime
Damages	Legal Process	Equality in Employment	Inchoate Offenses
Business Organisation	Division of Jurisdiction	Collective Organisations	Criminal Homicide
Agency	Legal Categories	Freedom of Association	Sex offenses, Crimes Involving Force, Fear and Physical Restraint
Partnership Law	Legal Professions	The Right To Organise	Crimes against Property
Nature and Formation of Companies	Civil Procedure	Collective Representation	Crimes against Public
Management and Operation of Companies	Criminal Procedure	Industrial Action	Crimes against the Government
